

## **Medicare Special Needs Plans**

Medicare Special Needs Plans are specially designed for people with certain chronic diseases and other specialized health needs. These plans are only available for specific groups of people, such as people living in certain long-term care facilities (like a nursing home), people eligible for Medicare and Medicaid, or people with certain chronic or disabling conditions. All Medicare Special Needs Plans provide Medicare prescription drug coverage.

# Medicare Special Needs Plans

Call the plan and ask if it is offered in your ZIP code and if you are eligible to join. If you are looking for a plan that isn't listed, visit [www.medicare.gov](http://www.medicare.gov) on the web or call 1-800-MEDICARE for more information.
